

Expedition conveyor belts

Make savings simply, with the automated passage of laundry through the laundry.

What are expedition conveyor belts?

WSP's specialists have developed the expedition conveyor belts specially to transport laundry packets. These efficient conveyor belts remove the need for loose containers spread across the work floor. Moreover, you can track the laundry packets on their way to the central expedition. This means you always know where your customers' laundry is.

Features

- Conveyor surfaces geared to laundry and situation
- Specially designed to transport laundry
- Packages can be tracked to central expedition
- Optimum position for flawless transport and presentation to expedition
- The merging of several lines made possible by lateral pushers
