

Expedition packet sorter

All laundry packets delivered correctly and complete to your customers. That is your goal. And you need very efficient equipment to help you achieve it. Like the expedition packet sorter developed by WSP.

What is the expedition packet sorter?

With the expedition sorting system developed by WSP you can always count on efficiently loaded containers. Complete laundry packets that reach your customers in the right way. You can sort by customer, product or route. An easy way to reduce the number of follow-up deliveries. What's more this system always communicates with your own Linen Management System. Which means the counts are always complete.

Features

- Achieve maximum return with pool laundry
- Combines well with overflow buffer in, for example, containers
- Automatic transfer of counts to Linen Management System
- Visualisation of customer-specific packing instructions

Technical data

- ✓ Efficient container loading in the correct order
- ✓ Quick distribution because of efficient customer order
- ✓ Completeness alert
- ✓ Possibility of sorting by customer level, product order and Route
- ✓ Reduction of manual labor
- ✓ Incompleteness and follow-up deliveries reduced
- ✓ Real-time view of production and planning status
