

# Lifting, shuttle and shuttle lifting conveyors

The lifting, shuttle and shuttle lifting conveyors developed by WSP are highly suitable for moving laundry both horizontally and vertically.

## What are lifting, shuttle and shuttle lifting conveyors?

This transport system is highly suitable for moving cakes or loose laundry both horizontally and vertically. The frequency inverter-controlled operation ensures that the conveyor's shuttle and lifting movements are always smooth. Of course, this conveyor is fitted with various safety mechanisms.

## Features

- For the horizontal and vertical transport of cakes or loose laundry
- Dynamic shuttle and lifting movements
- Separate speeds for loading and unloading to enable perfect integration

## Technical data

- ✓ Adjustable speed
- ✓ Custom made in every specific situation
- ✓ Equipped with the necessary safety mechanisms such as guard rails and anti-collision mechanisms

- ✓ Powder coating provides long-lasting protection
- ✓ Standard stainless steel in wet environment
