

# OH bag rail system

**Buffering unsorted laundry? That is a job for the OH bag rail system.**

## **What is the OH bag rail system?**

The OH bag rail system is suitable for storing unsorted laundry. Immediately on arrival, the unsorted bags of laundry are suspended from a hook and stored in a central buffer. From this buffer the bags are then called off to the sorting system.

## Features

- Efficient storage of unsorted laundry
- Rapid feeding immediately upon arrival due to efficient 'hook system'
- Demand-driven call-off to sorting station
- Option of fitting bags with RFID technology for automatic choice of customer
- Ergonomic due to 15 kilo maximum per bag

## Technical data

- ✓ Technical data
- ✓ Can be supplied with a safety edge
- ✓ Automatic control by WinWash enables buffering by customer level and product order
- ✓ Express rail fully adjustable
- ✓ Low maintenance frequency thanks to enclosed stainless steel rail
- ✓ Bags can be equipped with RFID technology to facilitate service and maintenance
- ✓ Uses customer's own laundry bags
